Title: ⓘ	*Profile version identification
Source: ⓘ	*http://wiki.services.eoportal.org/tiki-index.php?page=HMA-FO+OWS+Common+1.2+review
Work item code: ⓘ	
Category: ⓘ	* C (Functional modification of feature)

Reason for change: ⓘ	* The OWS Common 1.2 SWG Scope of Work includes the need to Define a URN to Identify Service Type, this should consider profile versions
Summary of change: ⓘ	* The current ServiceType syntax (https://portal.opengeospatial.org/twiki/bin/view/Member/OGCUrnIntro) has the form "urn:ogc:serviceType" ":" name ":" version ":" binding ":" profile, for example urn:ogc:serviceType:WebMapService:1.3:HTTP:EOP for the WMS EOP application profile service type. Issue description This URN syntax does not allow the version of the profile to be resolved.

Consequences if not approved: 🌐	It would be useful if this issue could be addressed to better support the resolution of (EOP) profiles

Clauses affected: 🌐	* see 7.4.4
