Title: ⓘ	*Harmonisation with Inspire Themes
Source: ⓘ	*briefly discussed within SIG3D

Category: ⓘ	* C (Functional modification of feature)

Reason for change: ⓘ	* There is an overlap between some themes in CityGML and the data themes identified by Inspire annexes, such as transportation networks, land use, terrain models or buildings. The differences to existing Inspire data specifications should be analysed. Proposals for harmonisations or practical reasons against harmonisations need to be documented and fed into the revision process.
Summary of change: ⓘ	* subject to analysis

Consequences if not approved:	will influence usability and market acceptance of CityGML, thought this is also dependent on the take-up and success of Inspire.
