Title:	*Management of a modularised specification and Application Domain Extensions
Source: 9	*discussion in CityGML v1.0 working group that started at the Stresa TC
Work item code:	
Category: 9	* D (Editorial modification)
Reason for change: 9	* A mechanism needs to be found that guides and controls the development of the existing and additional thematic structuring of the CityGML standards. Previous discussion suggested the creation of specifying different CityGML modules in separate documents, though this was deferred to after version 1.0.
Summary of change: 9	* Potential restructuring of the specification and creation of a governance and control structure for vertical thematic modules of CityGML
Consequences if not approved: 9	Limits ease of use, market acceptance of standard, conflicting and duplicated ADEs may be developed
Clauses affected:	* all
Additional Documents affected: 9
