<b>Title:</b>	*Clarify KVP BBOX parameter interpretation
<b>Source:</b>	*wfs-dev@lists.opengeospatial.org
<b>Work item code:</b>	
<b>Category:</b>	* D (Editorial modification)
<b>Reason for change:</b>	* It is not entirely clear from the text that the BBOX KVP parameter for GetFeature requests is to be interpreted exactly as specified in filter encoding.
<b>Summary of change:</b>	* There has been a discussion on the mailing list (wfs-dev@lists.opengeospatial.org, June 22nd 2010) that it should be

treated as the equivalent of the filter encoding variant (the BBOX filter).

**Consequences if not approved:** ⓘ

**Clauses affected:** ⓘ

\*

The BBOX parameter appears in sections 14.3.3, 14.7.3.1, 14.7.5.1, 14.7.6.1 (I hope I didn't miss any).
