Title:	*Abstract test suite seems to imply that a "Simple WFS" must implement remote resolve.
Source:	*cholmes@opengeo.org
Work item code:	
Category:	* D (Editorial modification)
Reason for change:	* In the list of tests for Simple Conformance Classes it says 'A.2.17'Which would seem to imply A.2.17.1, A.2.17.2, A.2.17.3.1, A.2.17.3.2, A.2.17.3.3. Seems reasonable to require A.2.17.1 - basically reporting 'none'. But everything else seems like a really high bar to reach a simple, let alone a basic, wfs conformance class.
Summary of change:	* General review of ATS to make sure that the tests correspond to the conformance classes.
Consequences if not approved:	
Clauses affected:	* Annex A.
