Title:	*Default value for the count parameter is not clear.
Source:	*pvretano@cubewerx.com
Work item code:	
Category:	* <input type="text" value="D (Editorial modification)"/>
<hr/>	
Reason for change:	* There is a disagreement concerning the default value of the count parameter between Table 5 and clause 7.6.3.5. Table 5 says the default value is 1. Clause 7.6.3.5 says there is no default value.

Summary of change: ⓘ	* Update Table 5 to indicate that there is no default value. Also is clause 7.6.3.5 correct the sentence fragment "... presented to the client subject to any server a configured limits." to read "... presented to the client subject to any server configured limits.". (i.e. Remove the 'a' before the work configured).
