Title:	*Addition of Google extensions to the KML Standard
Source:	*Sean Askay (Google)
Work item code:	
Category:	* B (Addition of feature)
<hr/>	
Reason for change:	* Addition of new KML features supported in Google Earth to the KML Standard.
Summary of change:	* Addition of several new simple elements and Feature types, highlights including: GPS Track feature type, Touring for recorded camera paths and feature animations and a new altitudeMode enum values.
Consequences if not approved:	These new, useful features remain in Google's extension namespace and do not become part of the official standard.
<hr/>	

Clauses affected: ⓘ	* Numerous additions of simple/complex types and new elements to the KML schema. Please see the current Google extension schema for details.
Additional Documents affected: ⓘ	KML Standard Development Best Practices 08-125r1 KML 2.2 - Abstract Test Suite (1.0.0) 07-134r2
Supporting Documentation: ⓘ	Please see attached Word document with representative changes. Also see the Google extension schema: http://code.google.com/apis/kml/schema/kml22gx.xsd
