Title:	*[GML 3.3] Clause A.1.1.5 includes non-mandatory constraints
Source:	*OWS-9/CITE
Work item code:	
Category:	* D (Editorial modification)
Reason for change:	* ATC A.1.1.5 ("Support for the GML model and syntax") appears in cl. A.1.1: Test cases for mandatory conformance requirements. However, it includes non-mandatory constraints since the lexical conventions are just recommendations.
Summary of change:	* Split A.1.1.5 into two separate ATCs addressing 7.1.2 and 7.1.3 as follows: * A.1.1.5: XML schema definitions (covers 7.1.3); * A.1.13.1: Lexical conventions (covers 7.1.2), where A.1.13 is a new clause entitled "Recommendations" (these do not need to be satisfied by a conforming schema).
Consequences if not approved:	All conforming GML app schemas must satisfy the optional constraints described in 7.1.2.
