Title: ⓘ	* [WPS 2.0] Make the default data format optional.
Source: ⓘ	*Matthias Mueller, Benjamin Pross
Work item code: ⓘ	
Category: ⓘ	* C (Functional modification of feature)

Reason for change: ⓘ	* For complex data in WPS, the declaration of default and supported formats is required (mandatory) by the DescribeProcess structure. The specification demands that a declared default format has to be repeated in the supported section. Some processes may not prefer a particular format so the choice of the default format is arbitrary in this case.
Summary of change: ⓘ	* Make the default format declaration optional.
Consequences if not approved: ⓘ	Shady decisions about the default format when there is no good reason to declare one.

Clauses affected: ❓	* 9.3.1, Table 21
