Title: 	* [EO PMOS SWG] Replace example of EO Product Metadata extension
Source: 	*ESA /GIM
Work item code: 	
Category: 	* B (Addition of feature)
Reason for change: 	* The specification contains an informative Annex E that illustrates how the specification can be extended to meet the requirements of specific EO missions. The extension that is described has however meanwhile become obsolete. It is therefore proposed to replace the contents of Annex E with a description of a new extension targeted at long time data preservation.
Summary of change: 	* Replace Annex E with the contents of the attached document
