Title: 🔵	* Offer an Optional StoredQuery in WFS 2.0 for Supporting Filter 1.1 Requests
Source: 🔵	*OWS-10 CCI Profile Interoperability Engineering Report
Work item code: 🔵	
Category: 🔵	* B (Addition of feature)

Reason for change: 🔵	*
	Currently the Filter 2.0 standard prevents WFS 2.0 from being backwards compatible with WFS 1.1. There is however a significant number of WFS 1.1 server and client implementations that cannot be ignored.

Summary of change:	* Add a StoredQuery into a 'Simple WFS' for receiving a Filter 1.1 Query and processing it as a WFS 1.1 would.
Consequences if not approved:	Limited backwards compatibility between WFS 2.0 and WFS 1.1
Clauses affected:	* Section 2 Table 1 description of Simple WFS Operation and Behaviour
Additional Documents affected:	
Supporting Documentation:	OWS-10 CCI Profile Interoperability Engineering Report
